About This Game

The planet was attacked by spaceships. This doesn't bode well. Armed with the most powerful weapons on Earth (including cats), you decide to fight back the invaders. Show your skill in piloting the spaceship. Fight like your fathers once fought in the past games. This game is a parody, so don't expect anything except fun from it. But well, harsh difficulties also, since it's a very difficult one...

Features:

- *A parody of several already cult games
- *Strange bonuses and solutions from developers
- *Hard difficulty
- *Enough levels to play, and not to make the game boring
- *Boss encounter

Don't be enticed into playing web spice by the interesting art style. It's a pretty cheap Space Invaders copy with not much to offer in the way of gameplay. The gameplay trailer is almost entirely sped up, but when you the play the game you will be stuck at normal speed. The art style and animation are pretty good for a small indie game, but the game just isn't fun to play.

I paid \$0.49 for this game as part of a discounted bundle, and feel that I did not get my money's worth.
